

Kiron Digital Learning Solutions

A Social Business to Sustain Impact

Creating impact

... is hard. **Sustaining it is even harder.**

We are here
to **make**
impact
sustainable.

We know the challenge first-hand.

We are an NGO
founded in 2015 with
one mission:
**Making education
accessible for
refugees worldwide.**

Our Impact

Almost **200,000 learners supported** in 10 years.

But we also learned something important:

We can't rely on public funding alone.

To stay true to our mission, we needed a new model.

We asked ourselves :

What knowledge did we gain –
that's valuable far beyond refugee
education?

The answer :

Our expertise in **digital
learning, integration & DEIB**
topics.

We could sell
the campus to
other social
businesses

Branding and
personalising it
for them

Digital Tool

A New Path

Kiron Digital was born to turn impact know-how into impact solutions. **We built an online campus** that helps organizations...

Teach skills

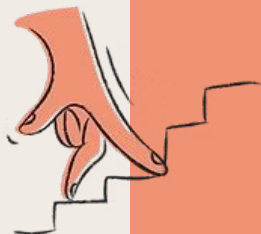

Reach learners

Build communities

Scale access to education

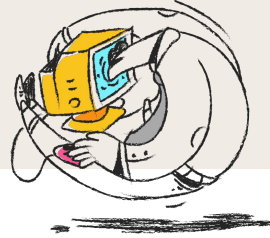

Our offerings & services

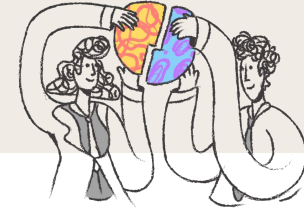

Learning platform

Our **cloud-based software** is hosted in Germany and promotes **collaborative learning** in an accessible and inclusive environment.

Consulting

We offer our **in-depth expertise** in the field of **designing digital learning environments**. Our strength lies in developing inclusive and interactive formats for different target groups.

Training

We **encourage** people to act as role models and **multipliers** and to positively **enrich their environment**.

Promoting **diversity, equal opportunities, inclusion, and belonging** counteracts the causes of many global challenges.

You may **wonder**:

“Doesn’t
a business
have **different
incentives**
than an NGO?”

Not in our case.

Kiron Digital is **100% owned** by the **NGO**.

All profits **go back into our mission**: education for refugees & displaced people.

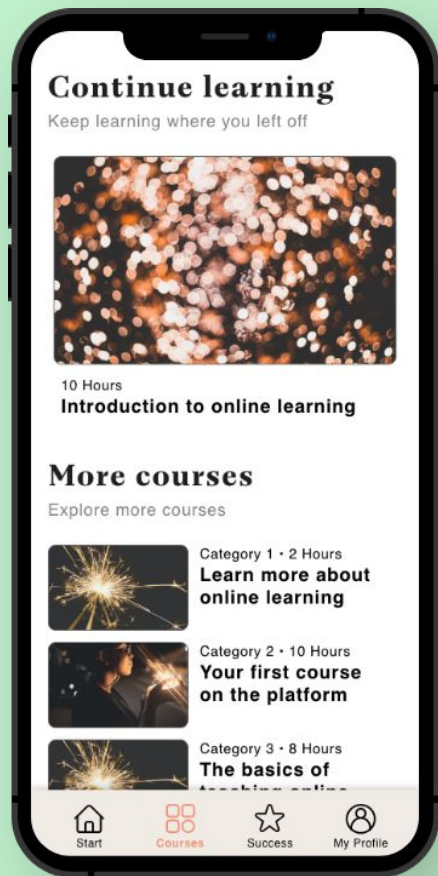

We believe:

NGOs have built
incredible knowledge

Now they can turn that expertise
into **new revenue streams**.

That's why we offer our **Campus**
as a white-label platform.

Branding
